BETTER ACCESSIBILITY, FLEXIBILITY AND CONTROL

Our Hosted IP PBX solution provides a feature rich technology that will increase productivity within your organization. The user-friendly web driven control panel offers enhanced features in an easy to manage interface.

GAIN A COMPETITIVE ADVANTAGE

123Net has more than 10 years of experience in VoIP deployments. You can rest assured that we have the expertise to provide the industry leading network and voice services with the service and support your business needs.

Unlike a traditional phone system, 123Net manages the delivery of the Hosted PBX over our robust network and moves the PBX from your office to our Tier 3 2(N+1) data center. This includes built-in redundancy and a service level agreement guarantee of 99.99% uptime.

HOSTED IP PBX OVERVIEW

Implementation

Setup is quick (30-45 days), and a 123Net project manager will help with a smooth conversion Connect desktops and smart devices through the 123Net application. Transfer existing phone numbers or order new numbers like vanity toll free. Desk phones will be placed and fully configured by a 123Net engineer.

Management

Manage the entire 123Net phone system from a desktop computer or smart device through the 123Net web portal. A user-friendly web interface offers complete control over the phone system with easy to use menus, text fields and check boxes. Change users, manage extensions from anywhere in the world. Users can manage their own settings.

Equipment

The 123Net Hosted PBX uses the Polycom enterprise-grade family of IP desktop phones.
